

## Discover our huts in trees

Each of our huts is original, predestined for his hundred-years-old unique tree the knotty whims of branches of which she marries : oaks, cedars, sequoias, sweet chestnut trees... Built between 4 and 19 meters high, they offer each a rustic but cosy comfort, **without water nor electricity of course**, but equipped with dry toilet.

## A complex of tourism and business between Rennes and Saint-Malo

Ideally situated in the heart of the Country of the Coast of Emerald, The Domain of Elms occupies a unique place in a region rich in heritage, of strong history, new strolls. Go off to explore magnificent beaches, visit the Mont Saint-Michel and investigate the historic cities of Dinan and Saint-Malo. Near, visit the attractive towns of Combourg and Dol de Bretagne.

## Real huts in the air

Huts are really above-ground as in our child's dreams ! They welcome people in the total respect for the growth of the tree which wraps them and protects them !

## A place privileged for the lovers!

# Services
